Professional Summary

UX/UI Architect and Product Design professional with 11+ years of experience creating intuitive, user-centered digital experiences for enterprise applications and web platforms. Skilled in UX strategy, user journeys, information architecture, wireframing, prototyping, design systems, usability, and accessibility. Combines strong design capabilities with hands-on front-end development using React, Angular, JavaScript, HTML, and CSS to translate user needs into responsive, scalable interfaces. Experienced in stakeholder collaboration, Agile delivery, and AI-assisted design workflows.

Core Competencies

- **UX/UI & Product Design**: UX Strategy, Design Thinking, User-Centered Design, User Journeys, Information Architecture, Interaction Design, Visual Design, Wireframing, Prototyping, Usability Testing, Accessibility, Responsive Design
- **Design Tools**: Figma, FigJam, Adobe XD, Photoshop, Illustrator, Design Systems, Reusable Components, UI Consistency
- **Front-End Development**: React.js, Angular, JavaScript, TypeScript (if applicable), HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap, Material UI, Responsive UI Development
- **API & Integration**: REST APIs, JSON, API Integration, Front-End Architecture, Agile/Scrum, JIRA, Confluence, Git, Stakeholder Management
- **AI – Assisted Design**: Generative AI Tools, Prompt Engineering, AI-Assisted Prototyping, Human–AI Interaction, AI-Enabled UX Workflowsp

Professional Experience

UI/UX Architect

Hexaware Technologies, Noida May 2024 - Present

- Lead UX strategy and experience design for enterprise digital applications, translating business and user needs into intuitive workflows.
- Create user journeys, wireframes, interactive prototypes, and reusable UI patterns to support consistent user experiences.
- Contribute to design systems, responsive interface standards, and accessibility compliance.
- Collaborate with product managers, stakeholders, and engineering teams to validate requirements and align design decisions.
- Implement and refine frontend interfaces using React, Angular, JavaScript, HTML, and CSS.
- Integrate REST APIs and apply AI-assisted design workflows to improve delivery efficiency.

SENIOR SOFTWARE ENGINEER

Sincro Digital - ANSIRA, Pune May 2023 – Mar 2024

- Designed booking-form experiences and prototypes for the Dave & Buster’s application.
- Developed interactive, responsive booking forms using HTML, JavaScript, React, Alpine.js, and Tailwind CSS, as applicable to the project.
- Integrated REST APIs to support reservation workflows across the platform.
- Collaborated with backend teams to deliver functional and consistent frontend experiences

LEAD CONSULTANT

Genpact India, Bengaluru Jan 2022 – May 2023

- Led UX and frontend collaboration for enterprise digital transformation initiatives.
- Defined UX architecture, reusable design patterns, and interaction standards across web applications.
- Developed user journeys, wireframes, prototypes, and high-fidelity designs to address user and business requirements.
- Guided frontend implementation using React, Angular, JavaScript, HTML, and CSS.
- Collaborated with clients and stakeholders to align user experience decisions with business objectives

SR. WEB GRAPHIC DESIGNER
Entire Software, Noida Apr 2019 – Jan 2022

- Utilized Adobe Creative Suite (Photoshop, Illustrator, InDesign) and Figma to create visually appealing designs.
- Created wireframes and prototypes for website design projects, focusing on user experience.
- Worked on React, Angular, HTML, SCSS, JavaScript, Bootstrap, Angular Material UI for front-end development.
- Developed graphics, logos, layouts for product illustrations, brochures, flyers, and posters for marketing campaigns and websites.
- Participated in Agile/SCRUM processes, including daily stand-up meetings, sprint tasks, and version control using Git.
- Collaborated with team members on UI/UX design, analysis, coding, testing, and website reviews

WEB GRAPHIC DESIGNER
Caring 4 U IT Solutions, Gurugram Nov 2014 – Mar 2019

- Developed mockups, prototypes, wireframes, information architecture, navigation, visual elements, interfaces, and high-fidelity designs in Photoshop and Illustrator.
- Developed web pages using HTML, CSS, JavaScript, jQuery, Bootstrap, and AngularJS.
- Created CSS-based page layouts that are crossbrowser and browser-compatible for enhanced functionality.
- Integrated content management systems into existing website frameworks.
- Developed custom WordPress themes based on client requirements.
- Utilized JavaScript libraries such as jQuery to enhance user experience on websites.

Education

Post-Graduation Diploma in Computer Application (PGDCA)
IGNOU (Indira Gandhi National Open University), New Delhi 2007 – 2012

Bachelor of Commerce (B. Com)
Delhi University, Delhi 2002 – 2005

AI Adoption & Productivity

- Utilized ChatGPT and Claude for solution design discussions, requirement analysis, and technical documentation.
- Used GitHub Copilot to accelerate frontend development, code refactoring, debugging, and unit test generation.
- Leveraged Microsoft Copilot across Word, Excel, PowerPoint, Outlook, and Teams for document creation, reporting, presentation development, meeting summaries, and communication drafting.
- Applied Generative AI tools to create Jira Epics, User Stories, Acceptance Criteria, and implementation tasks from business requirements.
- Used AI-assisted design tools and prompt engineering to accelerate wireframing, UI ideation, and UX prototyping activities.
